

2

Ground Traffic Control

Ground Traffic Control is the main database for fleet information gathered by Zonar.

Your URL and login information will be provided by your Implementation Project Manager.

3

Installation

A member of our installation team will be in contact with you to coordinate the installation of your equipment.

Our installation team can be reached for any installation related questions by:

Phone: 877.843.3847

Email: qc@zonarsystems.com

4

Training

If purchased, our dedicated Field Service Representatives will be in contact to discuss training dates and content.

Zonar also offers complimentary web-based training for all our customers.

5

Ongoing Support

We provide an extensive support site that is available through Ground Traffic Control, where you will find installation guides, manuals, videos, and certifications.

We offer 24/7/365 Help Desk support. This team is available to answer any questions you have. They can be reached by:

Phone: 877.843.3847

Email: customercare@zonarsystems.com

1

Shipment

Shipping logistics will be handled and tracking number provided by your Implementation Project Manager.
